

GUIDE TO THE DRAFT NORTH SHORE NEIGHBOURHOOD PLAN

WHAT'S INCLUDED IN THE DRAFT PLAN?

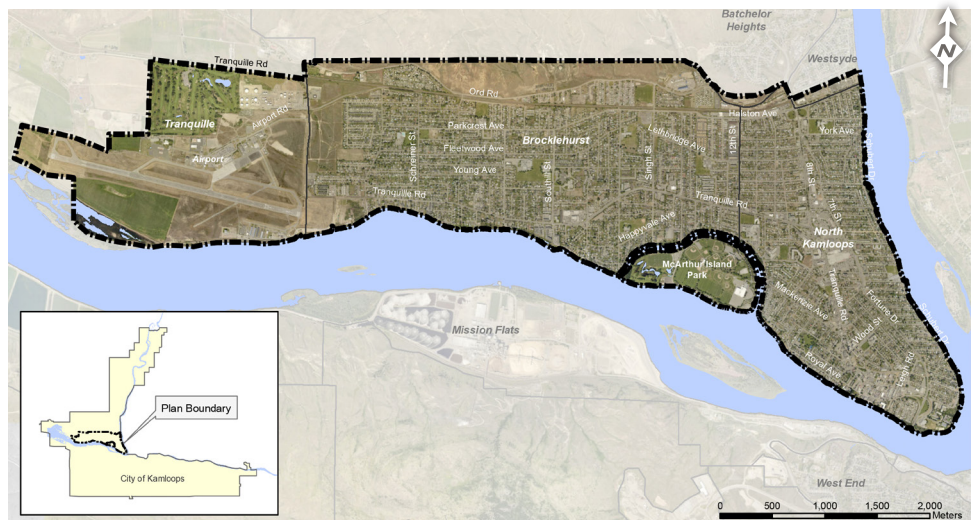

The North Shore Neighbourhood Plan is an update to the 2008 plan of the same name. Its purpose is to provide direction for land use planning on the North Shore. It includes a community vision, policies to guide decision-making by City staff and Council, and ideas described as “Big Moves”, which can help to achieve the vision.

COMMUNITY VISION

Working with Kamloops residents, a vision was created, which describes the North Shore as an **inclusive, dynamic, and complete community** that provides a high quality of life for every resident.

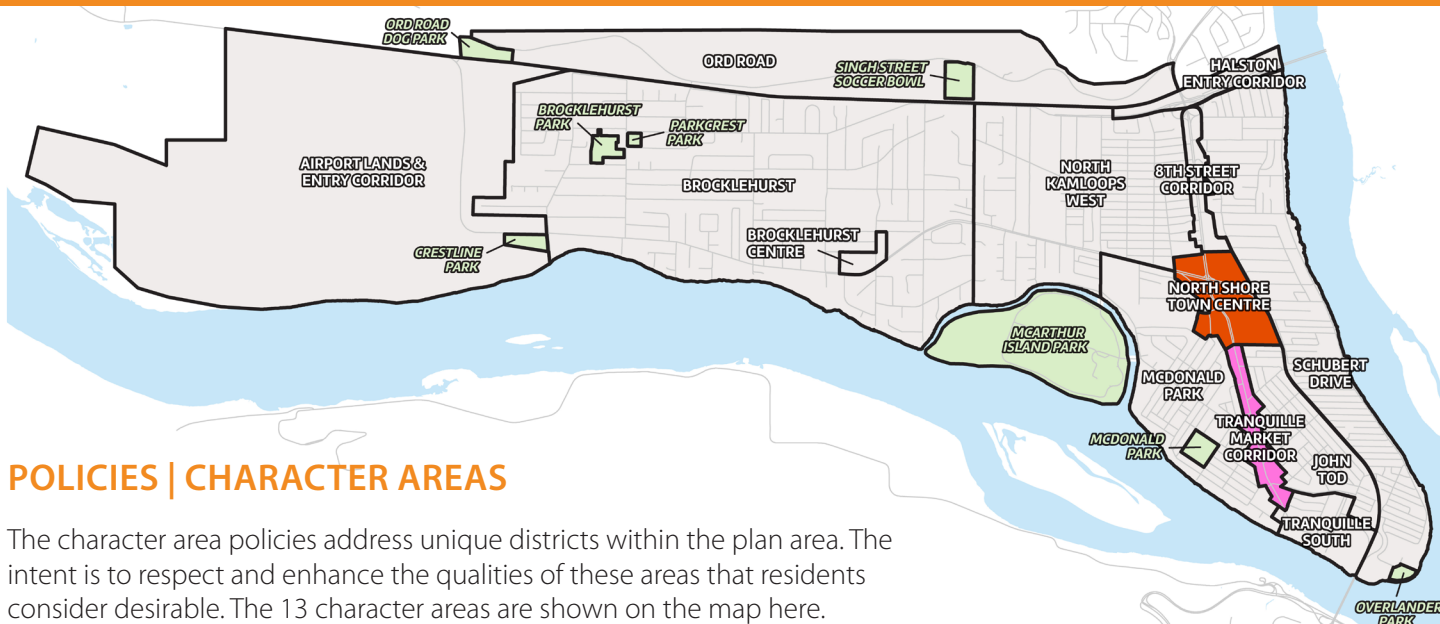

PLAN AREA

POLICIES | TOPIC AREAS

The draft plan includes a number of policies organized by topic and character areas. Topic area policies include:

- **Transportation & Mobility**
To create a transportation network on the North Shore that is sustainable, safe, accessible, and efficient.
- **Infrastructure & Environment**
To manage infrastructure sustainably and efficiently to address the needs of future residents and mitigate impacts on the environment.
- **Housing**
To encourage an adequate and diverse supply of affordable, safe, accessible, and appropriate housing to meet the needs of residents.
- **Parks & Public Places**
To provide a diverse and well-connected network of public recreational spaces.
- **Arts, Culture, and Heritage**
To build on and celebrate the North Shore's vibrant and eclectic arts community and history.
- **Economic Development**
To enhance and expand the diversity of the North Shore's economy; attract private investment; and promote tourism-oriented businesses, services, and events.
- **Health & Safety**
To foster a healthy and active community where residents and visitors of all ages feel safe, supported, and secure.
- **Food Security**
To support a local food system that enhances community health, resiliency, and economic development.

POLICIES | CHARACTER AREAS

The character area policies address unique districts within the plan area. The intent is to respect and enhance the qualities of these areas that residents consider desirable. The 13 character areas are shown on the map here.

BIG MOVES

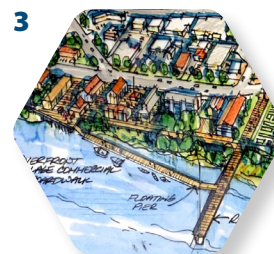

The big moves are conceptual ideas to help create a more inclusive, dynamic, and complete North Shore. The big moves include key redevelopment areas (#1-3), new housing opportunities (#4-6), and catalyst projects (#7-10). If these projects became a reality, they could help improve the North Shore by providing additional housing and commercial spaces; public gathering places; and safer, accessible connectivity for pedestrians.

1 North Shore Town Centre
Mixed-use urban village

2 Tranquille Market Corridor
Cultural Village & Innovation Hub

3 Tranquille South
Waterfront District

4 Missing Middle Housing
Added housing diversity

5 Sensitive Infill Housing
Compact infill opportunities

6 Live/Work Housing
Combined living & workspace

7 Civic Park & Amenity Building
Public space in the town centre

8 New Neighbourhood Park
Schubert Drive park space

9 Rivers Trail Extension
Waterfront multi-use path

10 East-West Bike Routes
New cycling connections

IMPLEMENTATION

To implement the plan, a list of 30 short-, medium-, and long-term actions have been identified to support the vision, policies, and big moves. Implementation will occur over the 20-year life of the plan and will require a combined City, community, and private sector effort to achieve.
