

CONSOLIDATED CURLING CENTRE

© Mary Putnam

Kamloops has a 75-year curling history. Our two curling clubs have joined forces to support a vision for the development of a single new curling facility that will replace two aging and inefficient facilities. With a creative design, we can offer a new curling facility and support the expanding needs of other sports organizations that are desperate for indoor space.

2019 RECREATION MASTER PLAN:

The City should facilitate discussions between the two existing clubs to explore the future infrastructure needs of curling in the community.

Current Supply:

- two facilities:
 - McArthur Island Curling Club (six sheets)
 - Kamloops Curling Club (eight sheets)

Current Need:

- Both curling facilities are aging, having been built in 1949 (Kamloops Curling Club) and 1965 (McArthur Island Curling Club) and will require significant investment to maintain.
